

Overview During this lesson pupils will learn how to be innovative and achieve excellence throughout their Micro-Tyco challenge.		Required Time 30 mins
Pupil Learning Outcomes <ul style="list-style-type: none"> Identify existing skills and abilities within themselves and team mates How to leverage internal and external resources The importance of having a network 		Resources Required PPT. 4 – Innovation Blank Paper
Activity & Suggested Time	Steps	Resources
Review of previous lesson 5 mins	1. How has the pupils' understanding of entrepreneurship changed? Since the last lesson have they identified any other entrepreneurial skills they possess or would like to develop?	PPT. 4
Internal & External Resources 10 mins	2. The teams that excel at Micro-Tyco all adopt the same entrepreneurial behaviours and apply the same key concepts. In this lesson the pupils will be taken through the most important of these. (These are all available in the Micro-Tyco Method eBook available here: https://joom.ag/MTVp using password: MT16WH). 3. Take the pupils through the slides, explaining the concepts of Leveraging Resources and Using their Network. Check their understanding as they go.	PPT. 4
Network Diagram 10 mins	4. Get pupils to create their Network Diagram. Give each pupil a blank sheet of paper and get them to map out their network. 5. Now get the pupils to consider how certain people in their network could help them during Micro-Tyco. 6. Get pupils to think about how they are actually going to use people in their network to help them and then get them to share their ideas with their team mates.	PPT. 4 Blank Paper
Lesson Round Up 5 mins	7. Ask pupils to feedback to the class what they learned about their networks. Note any key people who might be able to help during Micro-Tyco. 8. Give pupils an overview of what they will be learning in the next lesson: <ul style="list-style-type: none"> How to 'ideate' and generate ideas for Micro-Tyco How to plan to put their ideas into practice How to overcome potential obstacles 	PPT. 4
